Keyword(s): Land, drought, natural disaster, wildfire, precipitations, mountain range, Pyrenees, protected area, Spain, France

Fig. 1 - S2 (07.04.2023 / 17.04.2023) - A fire struck across the eastern border between France and Spain, as early as 17 April. [3D view](#) [3D view](#)

Fig. 2 - COP-DEM - It happened during a drought period, in a protected area of Cerbere. It burnt 930 hectares, mostly on sun-oriented slopes. [3D view](#)

Fig. 3 - S2 (07.04.2023 / 17.04.2023) - Detecting the burnt area proves to be more specific than the loss of vegetation. [3D view](#) [3D view](#)
